## PURE MILK WILL SAVE THE BABIES

### M. U. Professor Says Intestinal Diseases Among Children Increase In Summer

Not all the deaths during the summer are due to "rocking the boat." This is the time of year when the greatest amount of intestinal diseases, and consequent death, occur among babies and little children.

When asked the cause of this, Doctor M. P. Ravenel, professor of bacteriology and preventive medicine, at the University of Missouri, said that many of the disorders of the digestive tract, such as dysentery, diarrhoea and cholera infantum, were due to dirty and spoiled milk.

"Much of this dirt," said Doctor Ravenel, "comes from the stable and is made up in large part of intestinal discharges of the cow herself. In some cases disease germs, like tubercular bacillus, the germ of foot and mouth disease, garget, and septic sore throat, come directly from the cow into the milk. During the summer, however, diseases of the digestive tract most prevalent in children, which cause a large death rate, are often brought about by an excessive number of ordinary germs found in the intestinal tract of cows, many of which bring about rapid souring and decomposition of the milk with productions of poisonous products.

"Udders and flanks of cows should be cleaned and moistened before milking. The milker should have clean hands and the milk can should be cleaned and sterilized where possible. "Milk which is used in manufacturing ice cream should have the same care. Ice cream made from pure ingredients is a wholesome and nutritious food for even young children, and its use should be encouraged. It is now largely used also by convalescents with the best results.

"It should always be remembered that good work done in a dairy may be spoiled by careless handling of the milk in the home."

### THE ELOPEMENT OF ELLEN

The Senior class play, "The Elopement of Ellen" given Saturday night was exceptionally good, each one taking part in the play, a modern comedy, deserving special mention. The pupils had been trained for their parts by Misses Veerkamp and Jencke, who deserve credit for the thoroughness of their training.

The Senior class plays are always good and their popularity was evidenced by the large attendance Saturday night. And no one was disappointed for the play maintained the high standard of former years.

## MOVED 121 MILLION DOLLARS

### Gold and Silver Was Taken Through Streets of San Francisco

San Francisco, May 15.—The task of moving 121 million dollars in gold and silver through the streets of San Francisco was completed this afternoon. The vast fortune was in government money which was moved from the old sub-treasury to the new.

The work of transporting the money several blocks took five days. The total weight of the treasure was one thousand tons and only \$120,000 was moved at a time.

Armed guards sat within the closed trucks hauling the money, and secret service men trailed the wagons as they passed through the congested streets.

### EPWORTH LEAGUE ANNIVERSARY MEETING

The Epworth Leagues of the two M. E. Churches held a very interesting meeting last night in the M. E. Church. This was to celebrate the 26th birthday of the leagues, and members of the two societies gave a splendid program in honor of the occasion.

The other young peoples' unions of the town were invited so a large crowd was in attendance. After this program they marched to the tabernacle in a body.

The welcome address was given by Loyal Davies, the president of the M. E. South League. This was given in a way to create enthusiasm in the chapters and to make everyone glad to be present. Following this Earl Dennis, president of the M. E. Church League, gave a history of the League. This was given in an interesting manner and some good facts were learned from the history of so great an organization.

Short talks were made from words obtained from the words Epworth League, for instance, Earnest Perseverance, Watchfulness, Optimistic, Responsive, Trust, Worthy, Helpfulness, Loyal, Energy, Activity, Grit, Union and Enthusiasm. These words all apply to Epworth League life and everyone who took part did their subject justice.

Mr. Enoch took one of the parts, as one on the program was absent. It was a pleasure to have Mr. Enoch present and he surely gave some points worth remembering. He is president of the Young Peoples Christian Endeavor Society of the Christian church.

Glen Baity gave a summary of these words and to hear Glen Baity is to hear a live wire for God. Miss Mae Williams sang in this meeting and the Epworth League is proud of such a member. She has worked in the Epworth League all over the district and sung her sweet songs in a number of conventions.

D. C. Scott, who works as night car inspector for the Frisco, was quite seriously injured Saturday night about 12 o'clock, when a pair of wheels fell on him, badly crushing his hip.

Miss Loretta Conley went to Peirce City, Saturday evening to visit her grandmother.

## KINGS PRAIRIE

It turned a little cool Sunday. Joe Beymer sold the rest of his Jersey cows last week to parties that shipped them to Kansas.

Mr. Frost was out looking after his farm last week.

Rev. Wesley Riddle of Jenkins preached at the church at 11 o'clock to a good sized audience. Rev. Parker, living on the old McCormick place preached at night.

There was a large funeral procession followed the remains of Mrs. Anna Anderson of Globe to the Kings Prairie cemetery last Sunday.

New Liberty will observe Decoration Day, the fifth Sunday. Rev. B. F. Crawford of Purdy will deliver the address at 11 o'clock. There will be special music. At the close of the service they will repair to the cemetery. Comrades Will Fleming and B. S. Stribling will place the flags on the soldiers graves, followed by children with flowers. All those having departed ones at this cemetery are invited to participate.

Here is our best hand to Monett on going dry. Don't forget you are backed up by old Barry that went dry several years ago 3 to 1. Kings Prairie followed by 49 to 1. Then the midnight bells on the Prairie pealed forth the joyful sound that the dead is alive and the lost is found.

There was a fair attendance at the Sunday school last Sunday, 58 taking part in the lesson study.

A goodly number of our young folks are attending the meeting at Monett every few nights. We feel sure they are getting in good company.

Subscribe for the Daily Times and get some fresh news every day.

Some are hurrying to get through planting corn before time to get the binder out. There is considerable uneasiness about the fly. The are reported bad in many fields. Let us hope for the best.

John Tate and B. S. Stribling have been whitewashing their shade trees in their yards, we notice. The white and green makes quite an attractive contrast.

Several of the young folks took dinner with Miss Anna Redington, last Sunday.

Those having friends buried at the Prairie cemetery would do well to look after the condition of the graves before Decoration Day.

We are sorry to learn that it was necessary to take Charley Dummit's wife to the hospital at Monett. The family drove down to visit her after services at the church.
